MR Wedehouse has already earned character for being a very eccentric man, as a Magistrate and Coroner, but this morning Annie H. Suru, American ship, Capt. he eclipsed himself. After sentencing B. H. STEENKEN, German brig, Captain Fred Folk, Lemon's boarding-house runner, to three months' imprisonment with hard ELEKTRA, Austro-Hungarian str., Capt. labour fer an assault upon John Olsen, seaman, he told the defendant that he was FRANK PENDLETON, American ship, Capt. going to give the case his careful consideration, and then trotted home with his depositi- ns under his arm. The common run of magistrates would have given the case their best consideration before delivering sentence; but our Mr Wodehouse is nothing MARQUIS OF LORNE, Brit barque, Capt. if not original. A JAPANESE vernacular paper says that Mr Aston, the British Consul-General in Ko rea, is reported to have sent in his resignation. Since his return to his post he has been suffering from the unhealthy climate at the peninsula, and he has been obliged to resign on that account. His resignation, therefore, is not due to any political affair. It is unfortunate that Mr Asion should have had to leave his post at the present critical juncture in the affairs of Korea. A strong and able British representative at Scoul might beable to give. Korca much sound advice and assistance, and advance the trade interests of Britain at the same time.

MR A. Hinz, the agent for the sale of the American Fire Extinguishing Bomb, notifies us that a series of practical tests of the extinguishing bomb will be made upon the Parade Ground to-morrow evening at 6 o'clock. The bomb consists of a glass globe with a chemical solution from which is generated in fire heat an immense volume of extinguishing gas. The bombs are very highly spoken of, and if the experiments which are to be made to-morrow-prove that the new fire extinguisher is snything like as effectual as it is claimed to be, our local fire authorities should certainly lay in a store of the bombs against China New Year, when numerous conflagrations are a matter oi course,

A PRESS despatch received in San Fransisco from New York on the 27th June says :- The Pacific Mail Steamship Compuny is making arrangements to transfer its steamer City of Sydney from its Australian line to its China line in place of the City of Tokio. Her capacity is 3,010 tons, or a little more than half that of the City of Tokio. If necessary, additional steamers will be chartered for the same service, and as soon as the loss of the Tokio is assured, the company will probably build a boat to take her place. It will require about fifteen months to build the steamer and get her in commission. At present rate earnings, the officers of the company say a new boat can be paid for as well as built out of the net earnings and without suspending dividends. A dividend is declarable about three weeks hence, over 8600,000,

Mr Moseley, the San Francisco agent of the Company, says, in explanation of the THE import of Chinese rice into Japan is latter part of this dispatch, that the amount 786 named, \$600,000, is the cashon hand. dividend to be paid amounts to \$250,000 being 11 per cent on \$30,000,000.

An American contemporary received to-day records the death of Mr Joseph W. Torrey, well-known in the Far East, at Roxbury on Monday, the 22nd June, at about 10.30 o'clock at his residence, No. 17 Wabon street, Boston Highlands. It says ;- 'Mr Torrey was born in Bath, Me., about 57 years ago. Coming to Boston when young man, he was connected with various literary enterprises, notably the Carpet Bag, being the originator of the portrait gallery of that magazine. As a writer he was keen and critical in his wit and possessed great versatility. He was a member of the Apprentices' Library Association and the Aurora Club of Amateur Actors. In 1853 or 1854 he left Boston for the East, where he was for many years President of the Borneo Trading Company at Hongkong, also sharing the honors and profits of Governorship of the Islands of Borneo. being created Rajah of Borneo. At Bangkok, Siam, Mr Torrey occupied at one time the position of United States Vice-Consul, and was afterward Secretary of the Logstion. He had been home from the field of his labors for about a year, and for gapore for this port on the 6th inst. and some time past had been contemplating a place. Choys Shimbun. FROM a Washington despatch, dated June 30, we observe that Secretary Whitney has revoked the following obnoxious naval orders, issued July 5, 1884: Naval officers attached to cruising war-vessels, especially commanding officers, are expected to leave their families at their usual or fixed places of abode, and not to attempt to transfer them to more convenient visiting points. Officers disregarding this instruction will be liable to be relieved from duty.' This decision will no doubt be hailed with great satisfaction by U.S. naval officers every-

The Alta California says :- Secretary Whitney did the correct thing in revoking the abnoxious order of Secretary Chandler prohibiting the wives of naval officers from following their husbands to foreign ports. So long as the order remained in force, Secretary Whitney was disposed to inflict the penalty for its violation, and he transferred three officers on the Asiatic station for this cause. But seeing that the thing was one of Chandler's fool notions, he very properly decided to wipe it off of the navy regula-

THE little Chronicle of the London Missionary Society has the following in its July

A representive committee, consisting of influential residents of Hong Kong, has been appointed to undertake the raising and management of funds for the support of the Hong Kong haritable Hospital. One of the first acts of the new committee was to appeal to the European and native community for money, with satisfactory results. \$5,475.71 from Europeans, and \$2,500 from Chinese, \$7,075.71 in all, had been received when the last mail left.

-It would have been much more satisfactory to all concerned had the missionary organ given the credit of this money raising to the man who actually did it unaided, than to have put the case so vaguely. The Rev. Dr. Chalmers, Senior Missionary of the Society, was the only member of the Committee who did anything in collecting, and to him alone the success is due. The L. M. S. is getting over-modest concerning their own agents.

The idea of the export of Japanese timber to China was first conceived by a leading merchant in Tokyo, who sent there quantity for lumber by way of sample, but the transaction ended in a loss, the timber being rejected by the Chinese as not stitable for their purposes. Since then no step has been taken to carry out the export of timber, but the Kogyo Shokai, in the Hukkaido, is contemplating an attempt to carry on the trade.

LATE news with respect to the agricultural distress in Chol-la-do, Kores, is to the effect that the Korean Government, whose financial condition is embarrassed beyond all conception, is utterly unable to relieve the starving people, and the utmost misery prevails throughout the province. A NOVEL suit is reported by the San France cisco Chronich to have been commenced by a farmer in Wisconsin, U. S. It has been held for years that been everging a beneficial influence on several plants especially closer, by fertilizing the blossoms in their search for honey. In Australia many sheep owners have introduced bees for the express purpose of extending the growth of clover by their mercy. The max come of the suit is said to be senited with Sir Michael Hicks-Beach, in reply to Mr Labouchere, said no communication had been received from Russis with regard to the reported utterance of Sir Randolph Churchill that, 'Russia hastricked, decolved and lied to us as only Russia can' 'Sir Randolph, he added, 'domnot admit that his speech was accurately quoted.'

ONE of the many causes diebres which are passing through the San Francisco courts. was brought to a conclusion on the lat ultimo. The Jury impanielled in the case of young spreckels, indited for shooting M. H. de Young, after six hours' deliberation handed in a verdict of acquittal. The prevailing action appeared to be that the Jury would disagree. There was no question that the shooting had been done. The Jury, therefore, regarded it justifiable, but whether because of the provocation, or because it was done in solf-defense is not known. On the face of it there is an apparent failure of justice. In any more settled community it would certainly be so regarded. But the condition of things in San Francisco is very exceptional. - & F.

THE following paragraph, taken from the Malta Times of the 27th June, refers to a gentleman who held the post of Inspector of Machinery in the Naval Yard here a few years ago and who was extremely popular :-- Lat Saturday morning the Officers of the Dockyard, and the workmen of the Engineering Department, not in the Dockyard school room, for the purpose of presenting D. Robb Esq., Inspector of Machinery, R.N., with an address, beautifully mounted, as a small token of the very high esteem in which he is held by them, Mr. Robb being about to leave Malta Dockyard, to take up a similar appointment at Devonport Dockyard Words would fail to express how he has wen the hearts of all those who have been brought into contact with him, and the workmen, both English and Maltese, will lose in him, a good, true and honest friend.

THERE is some hope prevailing, says the Japan Cazette of the 28th ultimo, that the competition between the Kyodo Unyu Kwaisha and Mitsu Bishi, the rival steamship companies, is drawing to a close; and that no empirical method will be adopted to settle a matter in which the reputation of the government is deeply concerned. H. E. Count Saigo has evinced in this business a sound perception of the dilliculty, and it is believed he has sternly opposed the false methods suggested to check competition by fixing minimum rates of passage | money and freight, and various other schemes, evasion of which would not trouble the merest novice in business. On the 27th altimo H. E. the minister held a conference at his residence with the directors, president, vice president, and managers of the Kyodo Unyu Kwaisha, when it is believed the important question of am lgamation of the two companies was discussed. Under all the circumstance this is about the wisest course that an be followed. The opportunity open to the minister to effect an admirable arrangement is of the most templing character.

REFORMS. Philadelphia, July 7 .- A Times' Washington special says: Minister Denhy, who has been looking after records of correspondence and other matters connected with the legation at Peking, has come to the conclusion that reform in that branch of the diplomatic and consular service is greatly demanded. An attempt was made by Denny of Oregon, when sent to Shanghai a few years ago as Consul-General, to break up the Seward Bailey-Holcombe ring, but the Department of State, Evarts being Secretary, dismissed Denny for his efforts. Minister Denby appears to understand he has certain influences to encounter which will require more than ordinary virtue to withstand and overcome. The missionary influence at Peking led by Martin, Blodgett and Polk is as rotten as it

can be. If they do not capture Denby as

they did low and his successors, except
